

Junior Program

The Buena Park Youth Theatre Junior Program is designed to teach young children from the ages of 5 -8 the appreciation of theatre arts. During this program, the children will learn the early basics of theatre, participation, stage etiquette and learning to work together in a small cast.

Once the child has become of age (nine), they will be considered for the main cast. The only exceptions to our rule is if the child is eight years old and has already participated in six productions as a junior.

Please remember, as it is with all cast members, participation in previous shows does not guarantee a place in all shows. Each cast member must audition and is cast by the creative team.
